## Transfer of part of registered title(s)

# TP1

Any parts of the form that are not typed should be completed in black ink and in block capitals.

If you need more room than is provided for in a panel, and your software allows, you can expand any panel in the form. Alternatively use continuation sheet CS and attach it to this form.

Leave blank if not yet registered.

When application for registration is made these title number(s) should be entered in panel 2 of Form AP1.

Insert address, including postcode (if any), or other description of the property transferred. Any physical exclusions, such as mines and minerals, should be defined.

Place 'X' in the appropriate box and complete the statement.

For example 'edged red'.

For example 'edged and numbered 1 in blue'.

Any plan lodged must be signed by the transferor.

Give full name(s) of all of the persons transferring the property.

Complete as appropriate where the transferor is a company.

Give full name(s) of all the persons to be shown as registered proprietors.

Complete as appropriate where the transferee is a company. Also, for an overseas company, unless an arrangement with Land Registry exists, lodge either a certificate in Form 7 in Schedule 3 to the Land Registration Rules 2003 or a certified copy of the constitution in English or Welsh, or other evidence permitted by rule 183 of the Land Registration Rules 2003.

Each transferee may give up to three addresses for service, one of which must be a postal address whether or not in the UK (including the postcode, if any). The others can be any combination of a postal address, a UK DX box number or an electronic address.

1	Title number(s) out of which the property is transferred: WYK 798833 and WYK 801088
2	Other title number(s) against which matters contained in this transfer are to be registered or noted, if any: WYK 874674
3	<b>Property:</b> 11 Low Fold, Bolton Lane, Bradford, BD2 4AD  The property is identified <input checked="" type="checkbox"/> on the attached plan and shown: edged red and part coloured brown hatched black  <input type="checkbox"/> on the title plan(s) of the above titles and shown:

7	<b>Transferee's intended address(es) for service for entry in the register:</b> 73, Cromer Street, York, YO30 6DL

Place 'X' in the appropriate box. State the currency unit if other than sterling. If none of the boxes apply, insert an appropriate memorandum in panel 12.

Place 'X' in any box that applies.

Add any modifications.

Where the transferee is more than one person, place 'X' in the appropriate box.

Complete as necessary.

The registrar will enter a Form A restriction in the register *unless*:

- an 'X' is placed:
  - in the first box, or
  - in the third box and the details of the trust or of the trust instrument show that the transferees are to hold the property on trust for themselves alone as joint tenants, *or*
- it is clear from completion of a form JO lodged with this application that the transferees are to hold the property on trust for themselves alone as joint tenants.

Please refer to *Joint property ownership and practice guide 24: private trusts of land* for further guidance. These are both available on the GOV.UK website.

Use this panel for:

- definitions of terms not defined above
- rights granted or reserved
- restrictive covenants
- other covenants
- agreements and declarations
- any required or permitted statements
- other agreed provisions.

The prescribed subheadings may be added to, amended, repositioned or omitted.

Any other land affected by rights granted or reserved or by restrictive covenants should be defined by reference to a plan.

#### DECLARATIONS

Insert here any required or permitted statements, certificates or applications and any agreed declarations and so on.

The parties to this Transfer agree that Party Boundaries shall be party structures and the maintenance, repair and renewal of Party Boundaries is to be at the joint and equal expense of the Transferee and the registered proprietor for the time being of the adjoining part of the Estate

The transferor must execute this transfer as a deed using the space opposite. If there is more than one transferor, all must execute. Forms of execution are given in Schedule 9 to the Land Registration Rules 2003. If the transfer contains transferee's covenants or declarations or contains an application by the transferee (such as for a restriction), it must also be executed by the transferee.

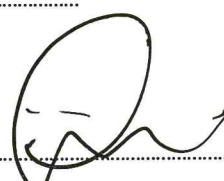

If there is more than one transferee and panel 11 has been completed, each transferee must also execute this transfer to comply with the requirements in section 53(1)(b) of the Law of Property Act 1925 relating to the declaration of a trust of land. Please refer to Joint property ownership and practice guide 24: private trusts of land for further guidance.

**About this form**

The aim of this form is to make clear to the buyer which items are included in the sale. It must be completed accurately by the seller as the form may become part of the contract between the buyer and seller.

**It is important that sellers and buyers check the information in this form carefully.**

**Definitions**

- 'Seller' means all sellers together where the property is owned by more than one person.
- 'Buyer' means all buyers together where the property is being bought by more than one person.

## Instructions to the seller and the buyer

In each row, the seller should tick the appropriate box to show whether:

- the item is included in the sale ('Included');
- the item is excluded from the sale ('Excluded');
- there is no such item at the property ('None').

Where an item is excluded from the sale the seller may offer it for sale by inserting a price in the appropriate box. The buyer can then decide whether to accept the seller's offer.

A seller who inserts a price in this form is responsible for negotiating the sale of that item directly with the buyer or through their estate agent. If the seller or buyer instructs their solicitor to negotiate the sale of such an item, there may be an additional charge.

### **Sellers and buyers should inform their solicitors of any arrangements made about items offered for sale.**

If the seller removes any fixtures, fittings or contents, the seller should be reasonably careful to ensure that any damage caused is minimised.

Unless stated otherwise, the seller will be responsible for ensuring that all rubbish is removed from the property (including from the loft, garden, outbuildings, garages and sheds), and that the property is left in a reasonably clean and tidy condition.

### About this form

This form is completed by the seller to supply the detailed information and documents which may be relied upon for the conveyancing process.

### Definitions

- 'Seller' means all sellers together where the property is owned by more than one person.
- 'Buyer' means all buyers together where the property is being bought by more than one person.
- 'Property' includes all buildings and land within its boundaries.

## Instructions to the seller

- The answers should be prepared by the person or persons who are named as owner on the deeds or Land Registry title or by the owner's legal representative(s) if selling under a power of attorney or grant of probate or representation. If there is more than one seller, you should prepare the answers together or, if only one seller prepares the form, the other(s) should check the answers given and all sellers should sign the form.
- If you do not know the answer to any question, you must say so. If you are unsure of the meaning of any questions or answers, please ask your solicitor. Completing this form is not mandatory, but omissions or delay in providing some information may delay the sale.
- If you later become aware of any information which would alter any replies you have given, you must inform your solicitor immediately. This is as important as giving the right answers in the first place. Do not change any arrangements concerning the property with anyone (such as a tenant or neighbour) without first consulting your solicitor.
- It is very important that your answers are accurate. If you give incorrect or incomplete information to the buyer (on this form or otherwise in writing or in conversation, whether through your estate agent or solicitor or directly to the buyer), the buyer may make a claim for compensation from you or refuse to complete the purchase.
- You should answer the questions based upon information known to you (or, in the case of legal representatives, you or the owner). You are not expected to have expert knowledge of legal or technical matters, or matters that occurred prior to your ownership of the property.
- Please give your solicitor any letters, agreements or other papers which help answer the questions. If you are aware of any which you are not supplying with the answers, tell your solicitor. If you do not have any documentation you may need to obtain copies at your own expense. Also pass to your solicitor any notices you have received concerning the property and any which arrive at any time before completion of the sale.

## Instructions to the buyer

- If the seller gives you, separately from this form, any information concerning the property (in writing or in conversation, whether through an estate agent or solicitor or directly to you) on which you wish to rely when buying the property, you should tell your solicitor.
- You are entitled to rely on the replies given to enquiries but in relation to the physical condition of the property, the replies should not be treated as a substitute for undertaking your own survey or making your own independent enquiries, which you are recommended to do.
- The seller is only obliged to give answers based on their own information. They may not have knowledge of legal or technical matters. You should not expect the seller to have knowledge of, or give information about, matters prior to their ownership of the property.

## 1. Boundaries

If the property is leasehold this section, or parts of it, may not apply.

## 7. Environmental matters

### Flooding

**Note:** Flooding may take a variety of forms: it may be seasonal or irregular or simply a one-off occurrence. The property does not need to be near a sea or river for flooding to occur. Further information about flooding can be found at:

[www.gov.uk/government/organisations/department-for-environment-food-rural-affairs](http://www.gov.uk/government/organisations/department-for-environment-food-rural-affairs).

The flood risk check can be found at: [www.gov.uk/check-flood-risk](http://www.gov.uk/check-flood-risk).

Read our updated Flood Risk Practice Note at <https://www.lawsociety.org.uk/support-services/advice/practice-notes/flood-risk/>

Further information about the types of flooding and Flood Risk Reports can be found at: [www.gov.uk/government/organisations/environment-agency](http://www.gov.uk/government/organisations/environment-agency).

## Radon

**Note:** Radon is a naturally occurring inert radioactive gas found in the ground. Some parts of England and Wales are more adversely affected by it than others. Remedial action is advised for properties with a test result above the 'recommended action level'. Further information about Radon can be found at: [www.gov.uk/government/organisations/public-health-england](http://www.gov.uk/government/organisations/public-health-england) and [www.publichealthwales.wales.nhs.uk](http://www.publichealthwales.wales.nhs.uk).

Further information about the Green Deal can be found at:  
[www.gov.uk/green-deal-energy-saving-measures](http://www.gov.uk/green-deal-energy-saving-measures)

## Japanese knotweed

**Note:** Japanese knotweed is an invasive non-native plant that can cause damage to property if left untreated. The plant consists of visible above ground growth and an invisible rhizome (root) below ground in the soil. It can take several years to control and manage through a management and treatment plan and rhizomes may remain alive below the soil even after treatment.

**7.8 Is the property affected by Japanese knotweed?**

If Yes, please state whether there is a Japanese knotweed management and treatment plan in place and supply a copy with any insurance cover linked to the plan.

## 8. Rights and informal arrangements

**Note:** Rights and arrangements may relate to access or shared use. They may also include leases of less than seven years, rights to mines and minerals, manorial rights, chancel repair and similar matters. If you are uncertain about whether a right or arrangement is covered by this question, please ask your solicitor.

**8.1 Does ownership of the property carry a responsibility to contribute towards the cost of any jointly used services, such as maintenance of a private road, a shared driveway, a boundary or drain?**  
If Yes, please give details:

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
------------------------------	--

**8.2 Does the property benefit from any rights or arrangements over any neighbouring property (this includes any rights of way)?**  
If Yes, please give details:

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
------------------------------	--

**8.3 Has anyone taken steps to prevent access to the property, or to complain about or demand payment for access to the property? If Yes, please give details:**

☐ Yes ☒ No

**8.4 Does the seller know if any of the following rights benefit the property:**

(a) Rights of light

☐ Yes ☒ No

(b) Rights of support from adjoining properties

☐ Yes ☒ No

(c) Customary rights (e.g. rights deriving from local traditions)

☐ Yes ☒ No

**8.5 Does the seller know if any of the following arrangements affect the property:**

(a) Other people's rights to mines and minerals under the land

☐ Yes ☒ No

(b) Chancel repair liability

☐ Yes ☐ No

(c) Other people's rights to take things from the land (such as timber, hay or fish)

☐ Yes ☒ No

If Yes, please give details:

**8.6 Are there any other rights or arrangements affecting the property? This includes any rights of way. If Yes, please give details:**

☐ Yes ☒ No

## Services crossing the property or neighbouring property

8.7 Do any drains, pipes or wires serving the property cross any neighbour's property?

☐ Yes ☐ No  
☒ Not known

8.8 Do any drains, pipes or wires leading to any neighbour's property cross the property?

☐ Yes ☐ No  
☒ Not known

8.9 Is there any agreement or arrangement about drains, pipes or wires?

☐ Yes ☐ No  
☒ Not known

If Yes, please supply a copy or give details:

☐ Enclosed ☐ To follow

## 9. Parking

9.1 What are the parking arrangements at the property?

The property benefits from a driveway for several cars

9.2 Is the property in a controlled parking zone or within a local authority parking scheme?

☐ Yes ☒ No  
☐ Not known

## 10. Other charges

**Note:** If the property is leasehold, details of lease expenses such as service charges and ground rent should be set out on the separate TA7 Leasehold Information Form. If the property is freehold, there may still be charges: for example, payments to a management company or for the use of a private drainage system.

10.1 Does the seller have to pay any charges relating to the property (excluding any payments such as council tax, utility charges, etc.), for example payments to a management company? If Yes, please give details:

☐ Yes ☒ No

## 11. Occupiers

11.1 Does the seller live at the property?

☐ Yes ☒ No

11.2 Does anyone else, aged 17 or over, live at the property?

☐ Yes ☒ No

If No to question 11.2, please continue to section 12 'Services' and do not answer 11.3–11.5 below.

11.3 Please give the full names of any occupiers (other than the sellers) aged 17 or over:

--------------

11.4 Are any of the occupiers (other than the sellers), aged 17 or over, tenants or lodgers?

☐ Yes ☐ No

11.5 Is the property being sold with vacant possession?

☐ Yes ☐ No

If Yes, have all the occupiers aged 17 or over:

(a) agreed to leave prior to completion?

☐ Yes ☐ No

(b) agreed to sign the sale contract? If No, please supply other evidence that the property will be vacant on completion.

☐ Yes ☐ No  
☐ Enclosed ☐ To follow

## 12. Services

**Note:** If the seller does not have a certificate requested below this can be obtained from the relevant Competent Persons Scheme. Further information about Competent Persons Schemes can be found at: <https://www.gov.uk/guidance/competent-person-scheme-current-schemes-and-how-schemes-are-authorised>

### Electricity

12.1 Has the whole or any part of the electrical installation been tested by a qualified and registered electrician?

☒ Yes ☐ No

If Yes, please state the year it was tested and provide a copy of the test certificate.

2020 Year  
☐ Enclosed ☒ To follow

12.2 Has the property been rewired or had any electrical installation work carried out since 1 January 2005?

☐ Yes ☒ No  
☐ Not known

If Yes, please supply one of the following:

(a) a copy of the signed BS7671 Electrical Safety Certificate

☐ Enclosed ☐ To follow

(b) the installer's Building Regulations Compliance Certificate

(c) the Building Control Completion Certificate

☐ Enclosed ☐ To follow

## Central heating

### 12.3 Does the property have a central heating system?

☒ Yes ☐ No

If Yes:

(a) What type of system is it (e.g. mains gas, liquid gas, oil, electricity, etc.)?

mains gas

(b) When was the heating system installed? If on or after 1 April 2005 please supply a copy of the 'completion certificate' (e.g. CORGI or Gas Safe Register) or the 'exceptional circumstances' form.

Date

☒ Not known  
☐ Enclosed ☐ To follow

(c) Is the heating system in good working order?

☒ Yes ☐ No

(d) In what year was the heating system last serviced/maintained? Please supply a copy of the inspection report.

## Drainage and sewerage

**Note:** Further information about drainage and sewerage can be found at:  
[www.gov.uk/government/organisations/environment-agency](http://www.gov.uk/government/organisations/environment-agency)

### 12.4 Is the property connected to mains:

(a) foul water drainage?

☒ Yes ☐ No ☐ Not known

(b) surface water drainage?

☒ Yes ☐ No ☐ Not known

If Yes to both questions in 12.4, please continue to section 13 'Connection to utilities and services' and do not answer 12.5–12.10 below.

### 12.5 Is sewerage for the property provided by:

(a) a septic tank?

☐ Yes ☐ No

If the property is in England and you answered Yes to question 12.5 and your septic tank discharges directly into surface water, you must do one of the following as soon as possible:

- connect to mains sewer
- install a drainage field (also known as an infiltration system) so the septic tank can discharge to ground instead
- replace your septic tank with a small sewage treatment plant

You must have plans in place to carry out this work within a reasonable timescale, typically 12 months.

#### 12.5.1 When was the septic tank last replaced or upgraded?

Month  
 Year

(b) a sewage treatment plant?

☐ Yes ☐ No

(c) cesspool?

☐ Yes ☐ No

**12.6 Is the use of the septic tank, sewage treatment plant or cesspool shared with other properties?  
If Yes, how many properties share the system?**

☐ Yes ☐ No  
 Properties share

**12.7 When was the system last emptied?**

Year

**12.8 If the property is served by a sewage treatment plant, when was the treatment plant last serviced?**

Year

**12.9 When was the system installed?**

Year

**Note:** Some systems installed after 1 January 1991 require Building Regulations approval, environmental permits or registration. Further information about permits and registration can be found at: [www.gov.uk/government/organisations/environment-agency](http://www.gov.uk/government/organisations/environment-agency)

**12.10 Is any part of the septic tank, sewage treatment plant (including any soakaway or outfall) or cesspool, or the access to it, outside the boundary of the property?  
If Yes, please supply a plan showing the location of the system and how access is obtained.**

☐ Yes ☐ No  
☐ Enclosed ☐ To follow

Specific information about permits and general binding rules can be found at [www.gov.uk/permits-you-need-for-septic-tanks](http://www.gov.uk/permits-you-need-for-septic-tanks)

## 14. Transaction information

14.1 Is this sale dependent on the seller completing the purchase of another property on the same day?

☐ Yes ☒ No

14.2 Does the seller have any special requirements about a moving date? If Yes, please give details:

☐ Yes ☒ No

14.3 Will the sale price be sufficient to repay all mortgages and charges secured on the property?

☐ Yes ☐ No  
☒ No mortgage

14.4 Will the seller ensure that:

(a) all rubbish is removed from the property (including from the loft, garden, outbuildings, garages and sheds) and that the property will be left in a clean and tidy condition?

☒ Yes ☐ No

(b) if light fittings are removed, the fittings will be replaced with ceiling rose, flex, bulb holder and bulb?

☒ Yes ☐ No

(c) reasonable care will be taken when removing any other fittings or contents?

☒ Yes ☐ No

(d) keys to all windows and doors and details of alarm codes will be left at the property or with the estate agent?

## Rules on letting this property

Properties can be rented if they have an energy rating from A to E.

If the property is rated F or G, it cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

## Energy efficiency rating for this property

This property’s current energy rating is C. It has the potential to be B.

[See how to improve this property’s energy performance.](#)

Score	Energy rating	Current	Potential
92+	<b>A</b>		
81-91	<b>B</b>		84   <b>B</b>
69-80	<b>C</b>	73   <b>C</b>	
55-68	<b>D</b>		
39-54	<b>E</b>		
21-38	<b>F</b>		
1-20	<b>G</b>		

The graph shows this property’s current and potential energy efficiency.

Properties are given a rating from A (most efficient) to G (least efficient).

Properties are also given a score. The higher the number the lower your fuel bills are likely to be.

For properties in England and Wales:

the average energy rating is D  
the average energy score is 60

## Breakdown of property's energy performance

This section shows the energy performance for features of this property. The assessment does not consider the condition of a feature and how well it is working.

Each feature is assessed as one of the following:

- very good (most efficient)
- good
- average
- poor
- very poor (least efficient)

When the description says “assumed”, it means that the feature could not be inspected and an assumption has been made based on the property's age and type.

Feature	Description	Rating
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 250 mm loft insulation	Good
Window	Fully double glazed	Good
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in 15% of fixed outlets	Poor
Floor	Suspended, insulated (assumed)	N/A
Floor	To unheated space, insulated (assumed)	N/A
Secondary heating	Room heaters, mains gas	N/A

### Primary energy use

The primary energy use for this property per year is 180 kilowatt hours per square metre (kWh/m<sup>2</sup>).

## Environmental impact of this property

This property's current environmental impact rating is C. It has the potential to be B.

Properties are rated in a scale from A to G based on how much carbon dioxide (CO2) they produce.

Properties with an A rating produce less CO2 than G rated properties.

An average household produces 6 tonnes of CO2

This property produces 3.7 tonnes of CO2

This property's potential production 2.5 tonnes of CO2

By making the [recommended changes](#), you could reduce this property's CO2 emissions by 1.2 tonnes per year. This will help to protect the environment.

Environmental impact ratings are based on assumptions about average occupancy and energy use. They may not reflect how energy is consumed by the people living at the property.

## Improve this property's energy performance

By following our step by step recommendations you could reduce this property's energy use and potentially save money.

Carrying out these changes in order will improve the property's energy rating and score from C (73) to B (84).

Step	Typical installation cost	Typical yearly saving
1. Low energy lighting	£55	£56
2. Solar water heating	£4,000 - £6,000	£33
3. Solar photovoltaic panels	£5,000 - £8,000	£276

## Paying for energy improvements

[Find energy grants and ways to save energy in your home. \(https://www.gov.uk/improve-energy-efficiency\)](https://www.gov.uk/improve-energy-efficiency)

## Estimated energy use and potential savings

Estimated yearly energy cost for this property	£833
--	------

Potential saving	£91
------------------	-----

The estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It is not based on how energy is used by the people living at the property.

The potential saving shows how much money you could save if you [complete each recommended step in order](#).

For advice on how to reduce your energy bills visit [Simple Energy Advice](#)

[\(https://www.simpleenergyadvice.org.uk/\)](https://www.simpleenergyadvice.org.uk/).

## Heating use in this property

Heating a property usually makes up the majority of energy costs.

## Estimated energy used to heat this property

Type of heating	Estimated energy used
Space heating	9208 kWh per year
Water heating	2284 kWh per year

## Potential energy savings by installing insulation

The assessor did not find any opportunities to save energy by installing insulation in this property.

## Contacting the assessor and accreditation scheme

This EPC was created by a qualified energy assessor.

If you are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

If you are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.

# NOTES FOR RECIPIENT

## THIS CONDITION REPORT IS AN IMPORTANT AND VALUABLE DOCUMENT WHICH SHOULD BE RETAINED FOR FUTURE USE

The purpose of a domestic periodic inspection is to determine, so far as is reasonably practicable, whether the electrical installation of a single dwelling (house or flat) is in a satisfactory condition for continued service. This report provides an assessment of the condition of the electrical installation identified overleaf at the time it was inspected and tested, taking into account the stated extent of the installation and the limitations of the inspection and testing.

The report identifies any damage, deterioration, defects and/or conditions found by the inspector which may give rise to danger (see PART 6), together with any items for which improvement is recommended.

If you were the person ordering this report, but not the user of the installation, you should pass this report, or a full copy of it including these notes, the schedules and additional pages (if any), immediately to the user.

This report should be retained in a safe place and shown to any person inspecting or undertaking further work on the electrical installation in the future. If you later vacate the property, this report will provide the new user with an assessment of the condition of the electrical installation at the time the periodic inspection was carried out.

Where the installation incorporates a residual current device (RCD) there should be a notice at or near the device stating that it should be tested every six months. For safety reasons it is important that this instruction is followed.

**For safety reasons, the electrical installation should be re-inspected at appropriate intervals by a skilled person or persons, competent in such work. The recommended date by which the next inspection should be carried out is stated in PART 5 of this report. There should also be a notice at or near the main switchboard or consumer unit indicating when the next inspection of the installation is due. NICEIC\* recommends that you engage the services of an NICEIC Approved Contractor for the inspection.**

This report has been issued in accordance with the national standard for the safety of electrical installations, *BS 7671: 2018 – Requirements for Electrical Installations*.

Only an NICEIC Approved Contractor or Conforming Body is authorised to issue this NICEIC Domestic Electrical Installation Condition Report. You should have received the report marked 'Original' and the Approved Contractor should have retained the report marked 'Duplicate'.

This report form is intended to be issued only for the purpose of reporting on the condition of an existing electrical installation and must not be issued to certify new electrical installation work including the replacement of a consumer unit.

The report consists of at least six numbered pages. Additional numbered pages may have been provided to permit further relevant information relating to the installation to be recorded. For installations having more than one consumer unit or more circuits than can be recorded in PART 12, one or more additional *Schedules of Circuit Details and Test Results* should form part of the report. The report is invalid if any of the schedules identified in PART 10 are missing. The report has a printed serial number, which is traceable to the Contractor to which it was supplied.

PART 7 (Details and limitations) should identify fully the extent of the installation covered by this report and any limitations on the inspection and testing. The inspector should have agreed these aspects with the person ordering the report before the inspection was carried out.

Rarely, an operational limitation may have been encountered during the inspection such as inability to gain access to parts of the installation or to an item of equipment. The inspector should have noted any such limitations in PART 7. It should be noted that the greater the limitations applying to a report, the less its value from the safety aspect.

A declaration should have been given by the inspector in PART 4 of the report. The declaration must reflect the statement given in PART 3, which summarises the observations and recommendations made in PART 6. Where one or more observations have been made in PART 6, the Classification code given to each by the inspector indicates the degree of urgency with which remedial action needs to be taken to restore the installation to a safe working condition.

Where the inspector has indicated an observation as code C1 (danger present) **the safety of those using the installation is at risk**. Wherever practicable, items classified as (C1) should be made safe on discovery, and it is recommended that a skilled person(s) competent in electrical installation work undertakes the necessary remedial work immediately.

Where the inspector has indicated an observation as code C2 (potentially dangerous) **the safety of those using the installation may be at risk**, and it is recommended that a skilled person competent in electrical installation work undertakes the necessary remedial work as a matter of urgency.

Where the inspector has indicated that an item requires further investigation (FI), the investigation should be carried out without delay to determine whether danger or potential danger exists. For further guidance on the Classification codes, please see the reverse of page 2.

Where the installation can be supplied by more than one source, such as the public supply and a standby generator or microgenerator, this should be identified in PART 8 *Supply Characteristics and Earthing Arrangements*, and the *Schedules of Circuit Details and Test Results* (PART 12) compiled accordingly.

Where inadequacies in the intake equipment have been observed (Item 1 of PART 10), the person ordering the inspection should inform the distributor and/or supplier as appropriate.

Should the person ordering this report have reason to believe that it does not reasonably reflect the condition of the electrical installation reported on, that person should in the first instance raise the specific concerns in writing with the Approved Contractor. If the concerns remain unresolved, the person ordering this report may make a formal complaint to NICEIC, for which purpose a complaint form is available on request.

The complaints procedure offered by NICEIC is subject to certain terms and conditions, full details of which are available upon application. NICEIC does not investigate complaints relating to the operational performance of electrical installations (such as lighting levels), or to contractual or commercial issues (such as time or cost).

*\* NICEIC is operated by Certsure LLP, a partnership between the Electrical Contractors' Association and the charity, Electrical Safety First. NICEIC maintains and publishes registers of electrical contractors that it has assessed against particular scheme requirements (including the technical standard of electrical work).*

# GUIDANCE FOR RECIPIENTS ON THE CLASSIFICATION CODES

## Only one Classification code should be given for each recorded Observation

### **Classification code C1 (Danger present)**

Where an observation has been given a Classification code C1, the safety of those using the installation is at risk and immediate remedial action is required.

The person ordering the inspection is advised to take action without delay to remedy the observed deficiency in the installation, or to take other appropriate action (such as switching off and isolating the affected part(s) of the installation) to remove the danger. The NICEIC Approved Contractor issuing this report will be able to provide further advice.

NICEIC makes available 'Electrical Danger Notification' forms to enable inspectors to record, and then to communicate to the person ordering the report, any dangerous condition discovered.

### **Classification code C2 (Potentially dangerous)**

Classification code C2 indicates that, whilst those using the installation may not be at immediate risk, urgent remedial action is required to remove potential danger. The NICEIC Approved Contractor issuing this report will be able to provide further advice.

It is important to note that the recommendation given at PART 5 of this report (Next Inspection) for the maximum interval until the next inspection is conditional upon all items which have been given a Classification code C1 and code C2 being remedied immediately and as a matter of urgency, respectively.

It would not be reasonable for the inspector to indicate that the installation is in a satisfactory condition if any observation in this report has been given a code C1 or code C2 classification.

### **Classification code C3 (Improvement recommended)**

Where an observation has been given a Classification code C3, the inspection and/or testing has revealed a non-compliance with the current safety standard which, whilst not presenting immediate or potential danger, would result in a significant safety improvement if remedied. Careful consideration should be given to the safety benefits of improving these aspects of the installation. The NICEIC Approved Contractor issuing this report will be able to provide further advice.

### **Code FI (Further investigation required without delay)**

It should usually be possible for the inspector to attribute a Classification code to each observation without indicating a need for further investigation.

However, where 'FI' has been entered against an observation the inspector considers that further investigation of that observation is likely to reveal danger or potential danger that, due to the agreed extent or limitations of the inspection and/or testing, could not be fully identified at the time.

It would not be appropriate for the inspector to indicate that the installation is in a satisfactory condition if there is reasonable doubt as to whether danger or potential danger exists. Consequently, where the inspector has indicated 'Further investigation required without delay' (FI) the overall assessment of the installation (PART 3) should be marked as 'Unsatisfactory'.

If the inspector has indicated that an observation requires further investigation without delay, the person ordering this report is advised to arrange for the NICEIC Approved Contractor issuing the report (or another skilled person or persons competent in such work) to undertake further examination of that aspect of the installation as a matter of urgency, to determine whether or not danger or potential danger exists.

### **Further information**

Further information on the application of Classification codes, primarily aimed at inspectors but of possible interest to persons ordering condition reports, can be found in Electrical Safety First's Best Practice Guide No 4 *Electrical installation condition reporting: Classification Codes for domestic and similar electrical installations*. The guide can be viewed or downloaded free of charge from [www.electricalsafetyfirst.org.uk](http://www.electricalsafetyfirst.org.uk)
